

CERTIFICATE OF ANALYSIS

2E10-H2

Monoclonal Antibody

Catalog No. / Cell Line:	2E10-H2
Isotype:	IgG ₁

Specificity:

Canine Adenovirus Type 1

Known Applications:

Virus neutralization.

References:

Whetstone, C.A. Monoclonal antibodies to canine adenovirus 1 and 2 that are type-specific by virus neutralization and immunofluorescence. *Vet. Microbiol.* 16(1):1-8 (Jan. 1988).

Description and Handling:

This monoclonal antibody is produced as mouse ascites fluid, clarified by centrifugation, and filtered through a 0.2 µM filter. The concentration is 1.0 mg/ml in phosphate-buffered saline, preserved with sodium azide.

Storage:

When the vial is stored at 2-8°C, it should be stable for one year.

FOR IN VITRO LABORATORY USE ONLY.
